

1. Hero Section

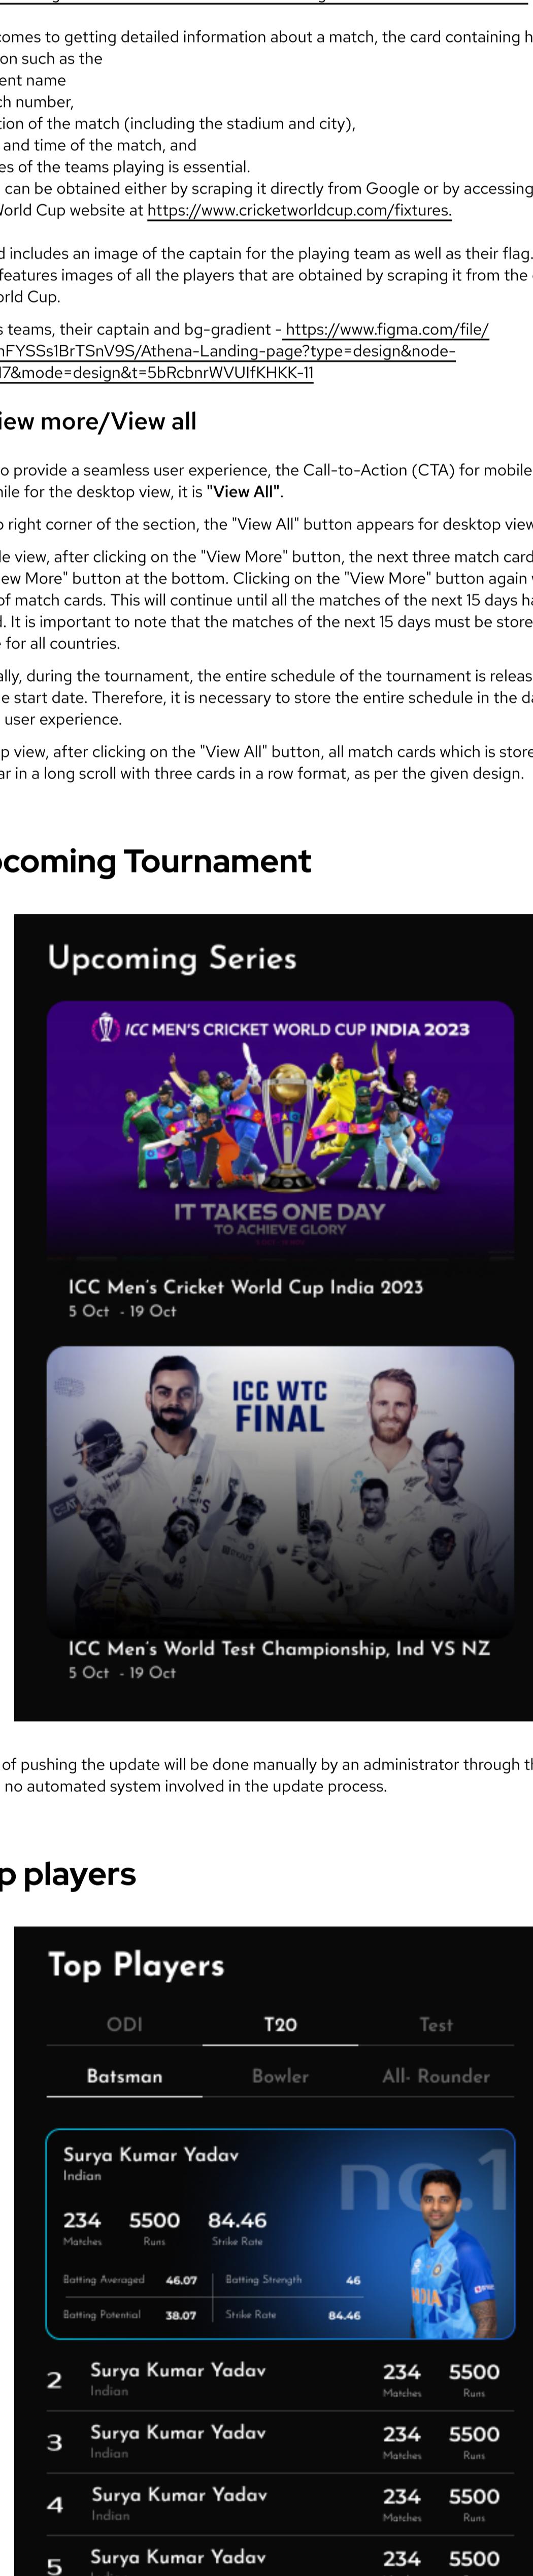

CTA "Predict Match"

Once the user clicks the Call-to-Action (CTA) button, they will be redirected to a new page where they will find themselves in the "Upcoming Matches" section. This section is located just below the Hero section,

From there, users can easily view and keep track of all the upcoming matches they are interested in and select the Matches for prediction.

2. Upcoming Matches

When using the site from a mobile device, only **three** cards are displayed on the screen at a time. On the other hand, when accessing the site from a desktop computer, **six** cards are shown simultaneously.

Card Design

- The card is clickable and after clicking the card it open up the "Screen 2_Player Selection". Where user can select playing eleven.
- Link to figma file - <https://www.figma.com/file/sGKnTZinFYSSs1BrTSnV9S/Athena-Landing-page?type=design&node-id=1208-2375&mode=design&t=5bRcbnrWVUlfKHK-11>
- When it comes to getting detailed information about a match, the card containing high-level information such as the
 - Tournament name
 - The match number,
 - The location of the match (including the stadium and city),
 - The date and time of the match, and
 - The names of the teams playing is essential.
- This data can be obtained either by scraping it directly from Google or by accessing the official Cricket World Cup website at <https://www.cricketworldcup.com/fixtures>.
- Each card includes an image of the captain for the playing team as well as their flag. Additionally, the card features images of all the players that are obtained by scraping it from the official website of the World Cup.
- list teams teams, their captain and bg-gradient - <https://www.figma.com/file/sGKnTZinFYSSs1BrTSnV9S/Athena-Landing-page?type=design&node-id=1212-117&mode=design&t=5bRcbnrWVUlfKHK-11>

CTA - View more/View all

- In order to provide a seamless user experience, the Call-to-Action (CTA) for mobile view is "View More" while for the desktop view, it is "View All".
- In the top right corner of the section, the "View All" button appears for desktop view.

For mobile view, after clicking on the "View More" button, the next three match cards will appear with a "View More" button at the bottom. Clicking on the "View More" button again will display the next set of match cards. This will continue until all the matches of the next 15 days have been displayed. It is important to note that the matches of the next 15 days must be stored in the database for all countries.

Additionally, during the tournament, the entire schedule of the tournament is released one month before the start date. Therefore, it is necessary to store the entire schedule in the database for a seamless user experience.

In desktop view, after clicking on the "View All" button, all match cards which is stored in database will appear in a long scroll with three cards in a row format, as per the given design.

3. Upcoming Tournament

The process of pushing the update will be done manually by an administrator through the admin portal. There will be no automated system involved in the update process.

4. Top players

CTA - Let's Task

- Redirect to the mail - team@cricketyug.com
